Phased out by General Assembly decision that the Executive Secretary would act as the Secretary-General of the United Nations on 11 January 1946; ceased to exist 2 February 1946, when the Secretary-General was appointed.

Purpose of the commission: to make provisional arrangements for the first sessions of the General Assembly, the Security Council, the Economic and Social Council, and the Trusteeship Council; to establish the Secretariat; to convene the International Court of Justice.

Successor organization: United Nations.

The Commission was comprised of one representative from each government signatory to the Charter.

Scope and Content

This series consists of mixed record types (documents, maps, brochures, photographs and posters) of the Interim Committee on Headquarters, which together describe the process leading to the selection of a permanent headquarters for the United Nations. Records of predecessor entities, including the Preparatory Commission, Executive Committee, Sub-Committee, Committee Eight (on General Questions) and Committee Ten (on General Questions) are also included. The Preparatory Commission was empowered to select a site for the permanent headquarters of the United Nations by the Interim Arrangements, signed 26 June 1945 in San Francisco, California, on the same occasion as the signing of the United Nations Charter. The Preparatory Commission established the Executive Committee, which formed ten committees, including Committee Eight and Committee Ten. A Sub-Committee appointed by Committee Eight created the Interim Committee on Headquarters in December 1945. An Inspection Group was subsequently tasked with visiting sites in the eastern United States that were approved by the Interim Committee on 28 December 1945.

Records in this series include summary reports, technical reports, recommendations and requirements, proposals, correspondence with officials and citizens, brochures, maps, photographs, posters and one photographic negative.

Please note the following inconsistencies relating to the dates of records in this series:

- Where earliest and/or latest dates are not supplied by the contents of a folder, the default dates given are 1 January 1945 to 31 December 1946, representing the period of the entire series, including the steps preceding the visit of the Inspection Group to the United States on 5 January 1946. However, in S-0532-0001-0004, the information release dated 4 January 1946 cites the process of selecting a permanent headquarters for the United Nations as tracing back to 26 June 1945, during the signing of the United Nations Charter. Therefore, the default dates of the series should more accurately be represented as 26 June 1945 to 31 December 1946.

- Earliest and latest dates noted in the series do not include the publication dates of maps, brochures and photographs in the series. However, in some cases, they do.

The following contents may be of particular interest for researchers; however, please note that records of note that are not supplied below are found throughout the series:
